

21st Century Community Learning Centers Program

21st CCLC Reviewer Scoring Report – Cohort 10

Applicant Name:	Vincennes University
Proposal Ranking:	17
Average Score	113.8/ 125

Proposal Strengths:

- Compared data to Allen County data to demonstrate need. Higher poverty and lower educational attainment rates.
- This application had a heavy reliance on presenting evidence for the decisions they've made related to programs, and that adds credibility and strength to the proposal. Many sections which didn't even require it had listed evidence pointing to the effectiveness of their approach. Additionally, this application had several novel strategies which this reviewer found particularly interesting. Specifically, the Cadet program, alignment to graduation pathways and the safety policy development with the resource officer were of particular interest.
- Presented a well developed proposal. Information presented, such as data, and goals were detailed, innovative, and aligned with the overall need and goal for programming.

Proposal Weaknesses:

- Latinos Count & Ivy Tech FW MOU's is an agreement for the 20-21 school year. Missing signature on Soarin' Hawk Raptor Rehabilitation Center & Taylor Made MOU's. The weekly schedule didn't include the Saturday programming and without that information, the program is only meeting 8 hours and 40 minutes each week.
- There were only a few weaknesses noted; generally to do with lack of detail. Also, length of several sections was slightly over requirement.

Top Areas Where Points Were Lost:

- MOU's
- Need for Project
- Program Communication
- Program Design
- Safety and Transportation
